

Alifa Ara Heya – Frontend Developer

Troy, New York, USA

Email: alifaaraheya@gmail.com | **Portfolio:** [alifa-ara-portfolio](#) | **LinkedIn:** [Alifa Ara](#) | **GitHub:** [alifa-ara-heya](#)

Skills

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, DaisyUI

Backend: Node.js, Express.js, MongoDB

Tools: Git, GitHub, JWT, React Router, Firebase

Languages: Bengali (Native), English (Professional proficiency), Arabic (Reading)

Projects

BloodAid

[Live — GitHub](#)

Jan-15-2025

A responsive, user-friendly web app with role-based access.

- Developed a responsive blood donor platform with **JWT-based authentication** and **role-based dashboards** (Admin, Volunteer, Donor).
- Integrated **Stripe** for **secure donation payments** and financial tracking.
- Built a scalable backend with **Node.js, Express.js, and MongoDB**.
- Integrated a simple blog management system and secure authentication using **React** and **Firebase**.

WhereIsIt

[Live — GitHub](#)

Dec-21-2024

Lost and Found Management Web Application

- Built a responsive platform for managing lost and found items with secure JWT-based authentication.
- Implemented search, filters, and recovery tracking features using React and Firebase.
- Designed a **dynamic UI** using **Tailwind CSS, DaisyUI, and Lottie animations**.
- Developed RESTful APIs for post management and user authentication using Node.js, Express.js, and MongoDB.

CrowdCube

[Live — GitHub](#)

Dec-21-2024

Crowdfunding Platform Web Application

- Implemented dynamic routing with React Router DOM and state management using React Context API.
- Integrated secure donations and authentication using Firebase, with RESTful APIs built using Node.js, Express.js, and MongoDB.
- Enhanced user experience with typewriting effects (React Simple Typewriter), tooltip support (React Tooltip), and responsive notifications (React Hot Toast).

Education

University of Chittagong

Chittagong, Bangladesh

Bachelor of Science in Chemistry

2017-2022

CGPA: 3.54/4.00

Courses

Programming Hero

Complete Web Development Course

Frontend-Focused **MERN Stack Development Course**

July 2024 - February 2025

- Hands-on training in MongoDB, Express.js, React.js, and Node.js (MERN Stack).
